Description:

The MLV4-L Receiver is a 4 Channel PWM constant voltage controller with digital numeric display and easy key operation. It can work on Stand-alone mode or RF mode.

You can set the receiver up as a single channel dimmer (no remote required), a 4 channel dimmer, dual colour controller or RGB/RGBW controller. While under RF mode you have compatibility with a variety of single color dimming, dual color and RGB/RGBW remotes such as the MLRT10.

Achieves flicker-less dimming using PWM 4096 levels

When controlling a RGB/RGBW lamp you have a 30 built in modes. Using 2.4GHz wireless technology you can sync up to 10 different remotes.

The MLV4-L can be WiFi controlled by installing the SkyDance App on IOS or Android mobile devices and using the MLWIFI - WiFi-Relay controller.
